

The Facts: Exploring Industries

Activity 14

The purpose of **Activity 14** is to discover information about **industries** in **myfuture**. We will look at the **Agriculture industry** as an example.

Navigate **myfuture** to research your answers and record your responses in the space provided.

- Go to <http://www.myfuture.edu.au>.
- Select **The Facts > Work and Employment**
- Click On **Industries**.
- Enter **Agri*** in the **Search For** field (rather than typing in a whole word into the **Search For** field, you can use the asteric (*) symbol at the end of part of a word and **myfuture** will search for words starting with those few letters).
- Click on **Search**.
- Click on **Agriculture**.

1. The Agriculture Industry is made up of three **Sectors**. List them below and write a sentence about each one to briefly explain what they are responsible for.

Sector 1:

Sector 2:

Sector 3:

2. Name the **related industry** to Agriculture and the **sectors** within that industry.

- Return to the **Agriculture Industry** page.

3. List 3 **related occupations** to the Agriculture industry and briefly explain some of the main duties and tasks of those occupations.

Occupation 1:

Occupation 2:

Occupation 3:

4. Name a related course and course provider to the Agriculture industry in your State/Territory.

5. Where could you go to find out further information about the Agriculture Industry?

If you have time you may like to do a new search for an industry you have an interest in.

- Select **The Facts > Work and Employment**.
- Click on **Industries**
- Browse or search.

Note: Each **Industry Information Fact Sheet** in myfuture contains information about Related Occupations, Related Courses and Further Information. Some Industry Information **Fact Sheets** will also have information about Sectors within an Industry, Related Qualifications, Related Industries and Sectors.
