

Locating industry information

Activity 5

The purpose of **Activity 5** is to help you learn more about what an industry is, and become familiar with where to find industry information available in **myfuture**.

You will need to:

- Select **The Facts > Work and Employment**
- Click on **Industries**.
- Conduct a search for **Agriculture**.
- There will be a number of matches for the keyword Agriculture.
- Select the first result listed.

1. What information headings are listed under Agriculture?

To find out more about an industry of interest to you:

- Select **The Facts > Work and Employment**
- Click on **Industries**.
- Choose an industry of interest to you by using a keyword search or browsing alphabetically.
- Read the industry information.
- Answer the questions below.

Name the industry you have chosen to research:

2 What sectors are in this industry?

3. Are there related sectors and industries? If so, list them.

4. What are the occupations related to this industry?

Discussion idea:

- Working with a partner, spend some time talking about which industry you chose and what you found out.

Some things to consider:

- Was there a range of related industries and sectors which you were not aware of?
- Did you discover that there was a related occupation that you didn't know about?
- Would you like to find out more and if so, how will you go about doing so?
