

## Learning Experience 4

### Exploring Industries

The purpose of this learning experience is to assist individuals or groups to develop an understanding of how they can use myfuture to identify and consider relevant industry information.

#### Exploring industries

As a large group brainstorm a list of local industries.

Introduce and discuss the meaning of key terms such as Industry, Industry group and Sector. Refer to **myfuture > The Facts > my career > Explore the World of Work** and ask participants to read the article as a research exercise.

Refer participants to myQuiz. Exploring Industries.

- Go to <http://www.myfuture.edu.au>
- Select Assist Others > myQuiz > Exploring Industries

Working in pairs ask participants to select a local industry. Listed below are suggested questions for individuals to research and consider.

- To which Industry group does your chosen industry belong?
- Identify some related Industries and sectors.
- Make a list of occupations available within this industry
- What are the local employment opportunities in this industry?
- What qualifications are related to work in this industry?
- How could you use this information to further explore career options?
- Make a list of further questions you have.

This learning experience complements **Activity 14** which can be found in the **myfuture Training Kit Section D2**.
