

Learning Experience 5

Exploring education and training pathways

The purpose of this learning experience is to assist individuals or groups to develop a broader understanding of the different education and training pathways and how to access the information in myfuture.

Refer participants to myQuiz. Exploring education and training pathways.

- Go to <http://www.myfuture.edu.au>
- Select Assist Others > myQuiz > Exploring education and training pathways

Reflection

Ask individuals to consider:

- their goals in relation to further education and training; and
- education and training opportunities available in their region.

Exploring education and training pathways

Ask participants to find out more about education and training pathways.

Listed below are suggested topics and questions for research.

Individuals should access information available from **myfuture > The Facts > Education and Training**

- Identify four education and training providers in your region and describe the type of training they offer.
- Identify a course or program of interest to you and search for a local provider.
- What qualification will you gain from completing this course?
- What are the options for further education and training upon completion of this course?

Review

- How does the information you have gathered impact on your goals in relation to further education and training?

This learning experience complements **Activity 16 : The Facts Exploring Education and Training Providers** and **Activity 17 : The Facts Exploring Courses and Programmes** which can be found in the **myfuture Training Kit Section D2**.
